ONE PAGE. ONE JOB.

What a landing page for a single service should do.

01

ONE SERVICE

Five-axis machining, say. Not 'our capabilities'. One thing, so it can be found for that search.

02

ONE KIND OF BUYER

Written for the person who buys that work. Their materials, their tolerances, their lead times.

03

PROOF ON THE PAGE

Photos of parts like theirs. The machines you'd use. The standards you hold.

ONE BUTTON

Request a quote. Nothing else competing for the click.

05

A FORM THAT ASKS THE RIGHT THINGS

Drawing, material, quantity, finish, date. So the first reply can be a price.

THEN BUILD THE NEXT ONE.

One service at a time. Each page earns its keep before you add another.

START A CONVERSATION.

Tell us which service you'd want more of.
