FOUR WORRIES ABOUT AUTOMATION.

And what's actually true, for firms that make things.

“IT’S FOR BIG COMPANIES.”

The smaller the firm, the fewer people there are to remember things. That's exactly where it helps.

“IT MEANS REPLACING PEOPLE.”

It takes over the reminders, the copying and the chasing. The person still prices the job.

“IT’LL SOUND LIKE A ROBOT.”

You write the wording once, in your voice. It sends what you'd have sent, on time.

“IT’S A HUGE PROJECT.”

One job. Acknowledge every enquiry the minute it lands. That's a sensible first build.

WHERE IT ISN'T WORTH IT.

If the business is winding down, don't bother. We'll tell you that ourselves.

START A CONVERSATION.

Tell us the job that eats your week. We'll tell you whether automation can take it.
